## HOW TO GET INVOLVED

Our corporate partners share our goal to ensure that children and young people, and their belongings, are valued as they transition into care or move home in the care system. Below we will outline some of the packages we have available to support this vital mission.

We can also create a bespoke opportunities to suit your needs.

Contact  
**sarah@comfortcasesuk.org** to discuss any of the opportunities below further.

## WHO WE ARE AND WHAT WE DO

**Every year, 36,000 new children enter the care system, equating to one child every 15 minutes.** Often, children are moved under emergency circumstances with a little more than the clothes on their backs.

**Comfort Cases UK** provides children entering the care system with a bag of bespoke belongings (comfort cases) they can call their own. Filled with essential and comforting items from books to PJs, toiletries, soft toys, blankets and even SIM cards for older children.

Four out of five children report that their treasured belongings are shoved in bin bags when they move from home to home - risking precious memories being lost or damaged. These rucksacks are invaluable and offer more than just the items inside - **they offer a sense of belonging, safety and security to children when everything is crumbling around them.**
