their belongings
in bin bags

Mission Statement

Comfort Cases UK is rooted in the belief that **every child deserves to feel** that they are **loved** and **valued**.

Children in care did not choose the life they were born into, and their basic **physical and emotional needs should be met** by the the wide community - that includes you and me.

Community is not defined by a post code.

No child should be made to **feel worthless, devalued, or invisible** during their time in care or beyond

Current Need

Comfort Cases UK are **free of charge** to our partners because our focus is that **every child's basic physical and emotional needs should be met.**

There is **no government funding** for our work and **limited grants available** for children in care.

Our impact is **immediate and direct.**

Currently we are having to **restrict this impact** due to **tight funding** leaving **100s of children every month** to move without dignity.

Your support is vital to our work.
